Protection inside and out.
Carry your HP ProBook 4340s to meetings around town and across the nation. With a 33,8 cm (13.3") diagonal HD[1] display, its thin and light design makes it easy to grab and go.
The aluminum casing offers extended durability to keep up with mobile use. The smudge-resistant and wear-resistant HP DuraFinish keeps the metallic gray color looking polished.
The spill-resistant keyboard helps protect sensitive electronics and key components from minor spills with a thin layer of Mylar film under the keyboard.

Accidents happen. HP 3D DriveGuard[3] helps protect your laptop's hard drive against impact, bumps and drops so your data has enhanced protection.
Easy-to-use yet robust security features safeguard your data from unauthorized users. From requiring a fingerprint swipe to Face Recognition[4], your notebook is protected.

Accomplish more with the right business tools.
Add edge to your presentations and documents. Incorporate colorful visuals with the discrete graphics on your notebook.
Play, edit and produce video and audio files with ArcSoft Total Media Suite.

Mix business with pleasure.
Watch training videos at work and enjoy your favorite flicks at home – all thanks to the pre-loaded multimedia software. Use the HDMI port to plug into a large display at home, while running a movie downloaded to your notebook[5].

Face time counts. The HD Webcam[6] helps you connect virtually to colleagues and family members when you can't be there in person. The ArcSoft Total Media Suite can also be used to initiate your webcam and do personal photo editing and video recording.
After a long day at work, relax to crisp tunes coming directly from your business notebook and SRS Premium Sound.
